The diagram illustrates the 'Search View - 6' interface. At the top, the title 'Search' is centered. Below it is a large, empty rectangular box representing the 'Search Results Field'. To the right of the results field are two buttons: 'Logout' and a red 'X' button, which is identified as the 'Quit Button'. Below the results field are four input fields: 'Tag Name', 'Tag Value', 'From:', and 'To:'. Each of the 'From:' and 'To:' fields has a small calendar icon to its right. Below these input fields is a 'Search' button. Arrows point from descriptive text boxes to each of these elements: the results field, the 'Logout' button, the 'X' button, the 'Tag Name' field, the 'Tag Value' field, the 'Search' button, and the 'From:' and 'To:' date range fields. At the top left, the names 'Roshan Seth' and 'Bola Henine' are listed. At the top right, a text box describes the 'Logout Button' as returning to 'Login Page - 1'.
